This guy hasn't lost a single weather prediction since may
he's making ~\$900 every single day. already 35 days straight.
\$39,000+ pnl. 1,166 predictions. \$732 biggest win.
profile: [[https:// polymarket.com/@hightemptatio n?via = 7777 ...](https://polymarket.com/@hightemptation?via=7777)]
I've analyzed this account and found he operates with the same amounts every time.
his position sizes never exceed \$2,500.
entry points are consistent. profit per prediction never exceeds \$500.
currently #2 monthly weather trader. but the most consistent one.
this is the art of position sizing. knowing exactly what you can handle.
